

Manrope for the face, **Syne** for the wordmark

The clock, track title and artist are set in Manrope. The BÆOREMOTE wordmark is set in Syne Bold. Sizes are for the 480 × 480 px round display.

TYPE

Clock	Manrope Bold 700 · 22 px · 4 px tracking · 80% ink
Title	Manrope Light 300 · 40 px · 1.15 line height · 90% ink
Artist	Manrope Bold 700 · 20 px capitals · 4 px tracking · 80% ink · 8 px below title
Wordmark	Syne Bold 700 · 22 px capitals BÆOREMOTE · 7 px tracking · 80% ink

BACKGROUND

	
Face	Gold radial gradient, lit from 42% / 30%: #E2C48A → #B08E5A (45%) → #6F5330
Ink	Etched dark cut #2E1D0C over a light lip #FBEACB at 70%, 2 px below
Bezel	Dark radial #2A2A2E → #0B0B0C

Night face: dim amber on black

Same fonts as the day face, with the clock as the main read in the centre and the track info small above it. The gold is replaced by a near-black face, and the text is a low-brightness amber. Warm, long-wavelength light is easier on dark-adapted eyes and lights the room less. There's no etching or glow.

TYPE

Clock	Manrope Light 300 · 104 px · -2 px tracking · tabular figures · primary amber · centred
Title	Manrope Regular 400 · 20 px · secondary amber · top 112 px
Artist	Manrope Bold 700 · 14 px capitals · 3 px tracking · secondary amber · 4 px below title
Wordmark	Syne Bold 700 · 22 px capitals BÆOREMOTE · 7 px tracking · secondary amber

COLOUR

Face	Near-black radial, very slightly warm: #0E0A08 → #070504 (60%) → #030202
Primary	Dim amber #B8704A, about 5:1 on the face
Secondary	Darker amber #A56444, about 4:1 on the face
Bezel	Unchanged: dark radial #2A2A2E → #0B0B0C

Also lower the display backlight at night. These colours are chosen to stay readable at 20–30% brightness.
